

Santo Maris

OIA
LUXURY SUITES & SPA

INSIDER JUNE 2017

Santo Maris Oia writes a new chapter in Luxury

Every contour of Santorini's landscape looks as though it has a story to tell. Oia, home to some of the island's most exclusive hotels, has a brand new luxe addition, far from the crowds: Santo Maris Oia Luxury Suites & Spa.

THE HOTEL:

Perfect in every detail, right down to the basket of bread in the morning, the infinity pool that spills into the horizon, the attentive and impeccable service.

THE PEDIGREE:

With its newest luxury addition, the Metaxas Group of Companies, that has successfully run the Creta Maris Beach Resort for over 40 years, expands into the Cyclades' most sought-after island.

BESPOKE SERVICES:

Neatly tucked away, at the edge of Oia village, the unique and luxurious Santo Maris Oia Luxury Suites & Spa has 42 suites and 2 sprawling villas with their own private pools, designed to cater to every wish of a couple on a romantic getaway. It is a destination unto itself with an accent on privacy and quiet elegance. Every single detail here has a story – from the herb garden to the lava-stained stones, the hand-crafted furniture and those wondrous sunsets that bathe the Aegean Sea in a roaming spectrum of gold, orange, magenta and mauve. Four different swimming pools on the property mean that you're spoilt for choice. Add to that the possibility of nursing a cocktail while you idle lazily by the pool.

WHEN IN SANTORINI...

Imbibe a chilled Assyrτικο on a wine tour of the island's famed vineyards, go horse-riding on Santorini's rugged terrain, grab a bargain at the chic parade of shops and galleries that run the full length of the marble-paved streets of Oia and Fira, take in the laid-back charm of Oia in the warren of streets just below the village's cathedral or go on a private tour of the volcano that defines the island.

GOURMET INDULGENCES:

If you want to indulge in a gourmet meal, look no further than the in-house restaurant Alios Ilios, loosely translated as "the sun that rises and sets in the sea." Just the incredible vistas from the veranda here should be reason enough to visit - but its refined cuisine, based on Crete's rich culinary traditions and Santorini's famed sun-kissed produce make the experience a truly memorable one.

REVIVE, RESTORE, REPEAT:

And just to take pampering to a whole new level, the sprawling 300 sqm spa offers a bespoke menu of detox therapies designed to make you unwind and truly enjoy the moment. [i](#)
